

## 1. World / Continental Championships events.

Please find attached a list with the remaining events for 2021. In addition, a new table with the program for 2022 and on, is also included.

## 2. World Cup / Open International events.

CIAM Bureau decided to allow the World Cup events to happen after July 1<sup>st</sup>. Each organizer with already registered for 2021 events, shall contact the World Cup coordinator of the specific class and announce if the event will happen as scheduled (if the event is planned from July 1<sup>st</sup> and thereafter) or if new dates are to be scheduled or the event will be rescheduled for next year.

The events will happen if possible and if feasible. Each organizer will have to inform in advance, the participants with the local COVID-19 procedures in place for the event according with the national restrictions applicable. Not all of the countries are applying the same restrictions. It is highly recommended for the organizers to read carefully the published FAI Guidelines. This document is providing a lot of information for what each organizer has to consider for a safe event.

Since for some of the disciplines, the planned events are not possible to be rescheduled, each S/C will decide separately about the future of World Cup ranking for 2021.

## 3. Juniors participation

Junior age limit eligibility was temporarily modified at the 2020 CIAM Plenary Meeting for the First Category events postponed from 2020 to 2021 and for the 2021 F1 World Cup events.

For the 2022 World and/or Continental Championships and World Cups, the existing rules as published in the CIAM General Rules Volume Sporting Code will be applied.

Do not hesitate to contact CIAM Bureau, S/C Chairmen or World Cup Coordinators for any additional information or clarification.

Kind regards

**Antonis Papadopoulos**  
CIAM President
