The world population will be 11 billion people and the demand for water will grow by 55%. The water consumption will be 844 million liters per day in 2050. 2.8 billion people suffer from water scarcity. 263 million spend more than 30 minutes per day in water collection. All this causes disease, death, hunger, war, violence, migrations, pollution, overexploitation.

1,000 children die every day in the world from water-related diseases. 140 million will have to leave their habitats over the next 30 years due to lack of water. 43% of Spanish rivers, wetlands and aquifers were overexploited and polluted by 2016. 844 million do not have basic water supply services.

The Green Decalogue and Laudato Si' 30 declare water scarcity condemns people. SDG 6: Ensure availability and sustainable management of water and sanitation for all by 2030.

What's the progress?

JUDGE: ANALYSE THE FACTS

Water scarcity condemns people.

Value the importance of your daily behaviour and inspire necessary decisions, even if they are costly. Green Decalogue

Our world has a grave social debt towards the poor who lack access to drinking water, because they are denied the right to a life consistent with their inalienable dignity. Laudato Si' 30

ACT: ENCOURAGE YOURSELF TO IMPLEMENT TRANSFORMATIVE ACTIONS

Calculate and reduce your water footprint.
Whenever you can, drink tap water instead of bottled water.
Help us to promote the Due Diligence Action Spain.
Consult the Eco Parish guide on our website.
Find out what is the water situation in your area.
Defend water as a public good.

#connectwaterpoverty

Learn about the case of Yurimaguas (REPAM) 13 oil spills have affected public health in 28 communities of the Peruvian Amazon.

Turning on a tap and getting drinking water, an impossible daily gesture for 2.1 billion people.
